Artist: Yasmin Jaswal

Yasmin Jaswal's vibrant talent is inspired by the Maasai people. The figures form a rich mix of ornate, adorned with gold, silver and copper which sometimes is misinterpreted as reflecting materialism of the contemporary world. In fact they symbolise the wealth of the nation's soul, undying spirit, tenacity in the face of hardship, and sustainability through the gift and joy of life.

All her works are original one off pieces and prices range from £50 to £250
